

## FOUR POST PERSONNEL LIFT FOR TRANSFORMER ASSEMBLY

SPECIALTY SOLUTION #26

PROCESS INDUSTRIES

- 4,000 lb capacity, mechanical actuation, 40" x 438" platform, 235" vertical travel
- Self-contained lift system provides safe, flexible working platforms
- High-speed, ball screw actuated lifts
- Helps maintain a safe and clean working environment
- Includes a central vacuum system; full air system for tools, fans for worker climate control, underside lighting and a safety trip system
- Features a one-of-a-kind sliding staircase which maintains its incline regardless of the platform's height

**H**andling Specialty custom engineered and manufactured an assembly work platform that helped improve workers' efficiency and safety. Incorporated in the design are platforms that extend 60" in and out enabling employees to reach an optimal work position.

A clean working environment is critical to transformer assembly which dictated that the lift system be entirely self-contained.
